Initial Lessons Learned

- Invest in building documentation or update existing data prior to disasters
- Immediately communicate with the local government to understand their needs
- Be Ready and Be Flexible
- DOCUMENT, DOCUMENT, DOCUMENT
- Maintain clear communication so that restricted time in the field is not wasted

Thoughts & Questions

- Understand in advance which counties are maintaining their own inventories and what those includes.
- How will we handle a disaster that affects a much longer area or two areas of the State?
- How can the State, the MD SHPO and preservation non-profits work together to build an expedited Emergency Rapid Response fund for future events?
